

Letter of recommendation

Mr. Muhammad Saeed, born on March 3rd 2001, joined our company on July 1st 2024.

Warptec Software GmbH realizes individual software solutions for mobile and web. From our location in Bamberg, we serve numerous customers of different sizes and from various industries.

He was employed as a working student and software developer in the areas of frontend, backend, deep learning, machine learning und data science.

His responsibilities as a **Full Stack & AI Engineer** included:

- Designed and developed scalable **full-stack applications** using React, Angular, and Node.js
- Built robust backend systems and APIs using Express.js and modern microservices architecture
- Worked extensively with **SQL and NoSQL databases**, including MySQL and MongoDB, ensuring efficient data modeling and query optimization
- Specialized in developing **AI-driven applications**, with a strong focus on **Retrieval-Augmented Generation (RAG)** systems for intelligent and context-aware solutions
- Integrated and deployed AI models using OpenAI APIs as well as **locally hosted LLMs** (open-source models)
- Designed and implemented **end-to-end RAG pipelines**, including data ingestion, embedding generation, vector search, and response synthesis
- Utilized modern AI frameworks and tools such as LangChain for building advanced LLM-powered workflows
- Trained, fine-tuned, and customized machine learning models based on project-specific requirements
- Deployed AI and web applications using **DevOps practices**, including CI/CD pipelines, containerization, and cloud/server infrastructure
- Ensured high performance, scalability, and reliability of both AI systems and full-stack applications
- Collaborated with cross-functional teams to deliver production-ready AI solutions from concept to deployment

Throughout his time with us, Mr. Saeed consistently demonstrated initiative, diligence, and strong motivation. He approached his tasks in a goal-oriented manner, ensuring objectives were met efficiently. His ability to quickly grasp new concepts and adapt to challenges was impressive, and he displayed excellent analytical skills and sound judgment, even in the face of complex tasks.

Muhammad Saeed successfully bridged the gap between academic learning and practical implementation, applying his theoretical knowledge to real-world problems. He took full advantage of the opportunities provided for hands-on learning and training. His conscientious approach to work was evident in his independent planning and systematic execution of tasks, consistently exceeding our expectations.

Mr. Saeed integrated very well with the team. His friendly and cooperative nature contributed to a positive, collaborative work environment.

We are grateful for Muhammad Saeed's valuable contributions and wish him the best of luck and continued success in his future endeavors.

Bamberg, March 31st 2026
